

HOW TO STAKE WITH YOUR SPROUTS CLASSIC WALLET:

If you already have installed your Sprouts Classic wallet, skip this first part

1. Go to <https://sproutsclassic.com> and go to the FAQ section.
2. Under the Wallet questions open “How do I setup my Sprouts Classic wallet?”
3. Open/Download the installation guide and install your Sprouts Classic Wallet.

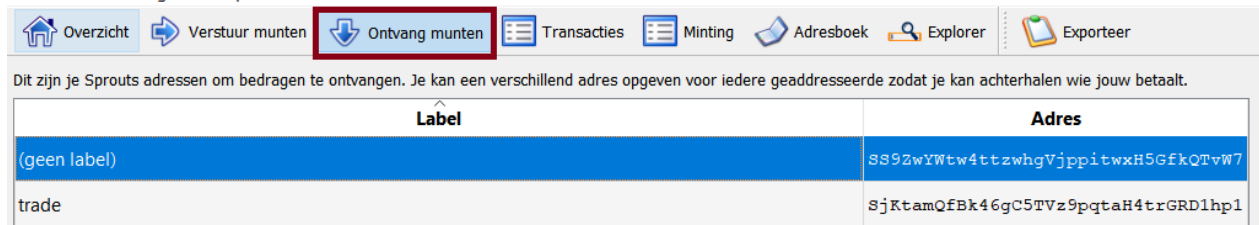

1. Start your Sproutsclassic.exe file.
2. Go to the settings tab -> encrypt wallet.
3. Make a password for your wallet. **If you lose your password, all your coins are lost!**
4. The wallet close automatically. Restart your Sproutsclassic.exe file.
5. Now your wallet is syncing with the Sprouts Classic blockcain.
6. Can't wait that long? We offer a new bootstrap every month on our website

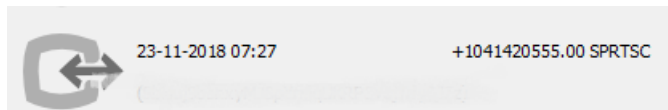

7. Go back to <https://sproutsclassic.com> and click on the template bootstrap and download the latest version. This may take a while and is depending on your internet speed.
8. Close your Sproutsclassic.exe file.
8. Navigate to C:\Users\AppData\Roaming\Sprouts.

9. Copy the contents from the downloaded bootstrap to the Sprouts folder and unzip it there.
10. Start your Sproutsclassic.exe file.
11. Your wallet is setup and ready to go. Time for the fun part. First, send SPTRSC coins form one of the supported exchange wallets to your wallet. Your address can be found in the "Receive Coins" tab.

12. To begin staking, send your coins to your wallet and unlock the wallet with your password form step 3. You must unlock your wallet to earn stakes!
13. Now relax and let the stakes roll in!

More Stake Reward information:

- Every stack of coins you send to your wallet can be used for minting.
- Each new stack of coins must first mature, this takes 5 days. After that your stack of coins can be minted for a stake reward. The larger your stack or coins send in one transaction to your wallet, the bigger your reward.
- Keep in mind that it is approximately 50% each month, depending on your days stacking and your amount of coins in the SPRTSC wallet.
